Daily Herald, six months, \$4.75  
Daily Herald, three months, \$2.50LOCAL CORRESPONDENCE from adjacent  
counties, especially solicited.JOHN F. DEWEY, DEPARTMENT—Owing to the  
greatly increased facilities, we are  
now able to execute all kinds of work in a  
superior manner. Special attention will  
be given to commercial and legal printing,  
and all orders will be promptly filled at  
moderate rates.Remittances should be made by draft,  
check, postoffice order or postal note.  
The latter should be sent for all sums less than  
five dollars.Office of publication, 75 North Spring  
street, Los Angeles. Telephone No. 156.

The "Illustrated Herald."

The forthcoming number of the ILLUSTRATED  
HERALD will surpass in attractiveness  
and interest any preceding issue of  
this very superior publication. The engravings  
have been executed by the best  
artists on the Pacific coast, and the  
mechanical finish of the whole publication  
will be such as to reflect credit upon the  
good taste and workmanship of the printers.  
It will be filled with carefully prepared  
articles on Southern California, and every  
interest of Los Angeles county will find  
itself ably presented and discussed in its  
columns. As a compilation of facts relating  
to the attractions and progress of our  
section, the ILLUSTRATED HERALD will be  
valuable to read abroad. It will give the  
stranger a comprehensive and graphic idea  
of the value of our section to the Eastern  
seeking for a new home, and by its dis-  
semination will materially assist in acceler-  
ating the gratifying march of our city in its  
unexampled career of prosperity. The  
ILLUSTRATED HERALD will be out from the  
press by about the 15th of this month, and  
ready for distribution about the 1st of  
March. Orders should be sent in imme-  
diately.

Let us be Ready.

The United States has taken an  
attitude upon the fishery question  
from which she cannot recede. Con-  
gress has spoken in no mistaken  
terms on the subject of the arbitrary  
seizures, and has followed up its  
declarations by a policy of reprisals  
that means something more than  
mere words. The whole country is  
behind Congress, and no advanced  
steps can be taken in this controversy  
which the people will not endorse.  
Following the introduction of bills to  
punish Canada in her commercial in-  
tercourse with us for the outrages  
visited upon American fishermen,  
measures have been presented to  
Congress to strengthen our navy and  
to place our harbors and ports on a  
defensible footing. That is the proper  
thing to do. Nations, any more than  
individuals cannot afford to take a  
stand which they are not ready to  
maintain by force if need be. It is  
among the possible contingencies of  
the attitude we have taken that  
serious trouble with Great Britain  
may arise. In that event we should  
be ready to assert our dignity at all  
hazards. As we are now situated, a  
sudden outbreak of hostilities would  
find us in a very unprepared state. It  
is true that we have within ourselves  
unlimited resources that could be  
turned, in a very short time, to use,  
in case of war. But, nevertheless,  
the fact remains that our navy is  
worthless for modern opera-  
tions, and our ports are defence-  
less as against the great naval  
armaments of the present time.  
Therefore not a day is to be lost in  
placing our country in a position not  
to suffer by the determination to  
make our words good. Whilst it is a  
fact that we would soon, even if hos-  
tilities were opened at once, be in po-  
sition to successfully resist all war-  
like inroads by sea or land, yet in  
the first burst of attack we could be  
made to suffer incalculably greater  
losses than the cost of the most ex-  
pensive preparations to secure us in  
advance from harm would come to.  
No civilized power on earth is in bet-  
ter condition financially and materi-  
ally to arm herself against attack by  
land or sea. Our treasury is drop-  
ping with money, and our credit is 33 1/2  
per cent. above par. For land opera-  
tions we could organize an army of  
two millions of the best fighting men  
in the world in forty-eight hours; and  
if the necessity should arise, this  
magnificent force could be increased  
to five millions. This settles the  
question as to our security on land. To  
make our harbors safe and to assure  
the offensive, however, we would re-  
quire time. With our available sur-  
plus in the treasury we can, without  
taxing the nation a dollar, make our-  
selves secure at all points, and con-  
struct that naval armament that could  
cope with that of any first-class power.  
This, then, is the task immediately  
before us. The disposition of Con-  
gress is favorable to the rehabili-  
tation of our navy and the improve-  
ment of our coast defenses. No time  
should be lost to create these neces-  
sary accessions to our national  
strength. We have assumed an atti-  
tude which calls upon us to back our  
words with deeds, if need be. When  
it is seen that we are nearest, what  
ever concession we insist upon will  
be granted. The country is ready to  
back Congress in all the measures it  
may adopt looking to the strengthen-  
ing of our harbor and the improve-  
ment of our navy, and unless Con-  
gress should come up to the expecta-  
tions of the people a dissatisfaction  
will arise that will mean ruin to the

felt from one end of the land to the  
other. We have been long enough  
drifting along in a slipshod way,  
letting our strength as a naval effi-  
ciency dwindle until it has become  
the laughing stock of the puniest  
powers. Let us now, that there is a  
real occasion for asserting our dig-  
nity, rise out of this rut and place  
ourselves in this respect in a position  
to measure our strength with the  
greatest maritime nation of the time,  
if it should be necessary to do so.

The Legislature of Nevada may  
take a step in advance on the subject  
of irresponsible private detectives  
which will commend itself to the  
Legislatures of other States. The  
detective business ought to be regu-  
lated, but whether the licensing of  
them as is proposed in Nevada is the  
best way to cure the defects of the  
system we are not prepared to say.  
We read that—

Mr. Sims of Nevada has introduced  
a bill making it unlawful for any per-  
son to engage in business as a private  
detective except upon a license from  
the Attorney-General. The fee is  
made \$5 and the person so licensed  
must wear a badge designed and  
issued by the Secretary of State.  
Licenses shall be good for two years,  
but may be revoked for cause at any  
time. Violation of the law is made a  
misdemeanor; penalty, fine from  
\$50 to \$500 and imprisonment at the  
discretion of the Court. The applic-  
ant for a license must satisfy the  
Attorney-General of possessing a good  
character.

We publish elsewhere a partial  
condensation of Wright's bill as  
amended to create irrigation districts  
and to govern the mode of acquiring  
and distributing water in this State.  
The friends of irrigation in both  
Houses seem to have settled upon this  
bill, as it has been amended, as a  
measure that will meet some of the  
most urgent requirements of Southern  
California, and it will probably  
become a law. The subject is of the  
greatest importance to our section,  
and we therefore make no apology for  
devoting so much space in laying  
this bill before the readers of the  
HERALD. This, with the repeal of  
section 1422 of title VIII of the Civil  
Code, will probably grant all the  
relief we can reasonably expect from  
this Legislature.

General Vandever Posing as a  
Martyr.

Yesterday's Tribune, under the head  
"It will not do," has the following strik-  
ing editorial comments upon the answer  
of General Vandever to the notice of  
Congress of Mr. Lynch for the seat in Con-  
gress from this district:

A staunch Republican has called at  
this office, not, we are frank to say,  
to see the editor of the Tribune, but to  
see the editor of the Tribune, and to  
speak to him in the spirit of friendship  
towards that distinguished gentleman,  
to explain why the answer to Colonel  
Lynch was made partisan rather than  
personal.

The opinion of this Republican is that  
General Vandever expects to be denied  
his seat, anyhow; and, accordingly, in  
addition to his formal answer to al-  
legations of fraud, he has deliberately  
invited martyrdom. That his elaborate  
paper, which we printed on yesterday,  
is intended to do so much to secure him  
the seat to which the electors of this  
Congress district appointed him, as to  
establish a case of sympathy for use two  
years hence.

If this Republican is right in his view,  
we must reply that there are two strong  
objections to his being also taken by Gen-  
eral Vandever. One is that it was not a  
seat in the Congress to be chosen in 1888  
that he was intended for, but a seat in  
the Congress that was elected last Novem-  
ber. It is his duty to defend his  
right to that seat with the weapons at  
hand; and he should use those weapons  
with skill and effect, in order that the  
Republicans of this district be not de-  
prived of a voice in the National House  
of Representatives. He has no need to  
proceed as though he would certainly be  
ousted. Cases of contest are not often  
improperly decided. Nearly always  
eminent lawyers who have characters  
to maintain have held positions on the  
Electors Committee, and they have  
generally passed judicially on the evi-  
dence. General Vandever will have be-  
fore him a committee of cases that in fair  
probability will be determined upon  
the evidence, and in accordance with law.

If he is wise he will confine himself  
when he gets to Washington to showing  
that Colonel Lynch's allegations of  
wrongdoing and false counts are not  
true, and to showing fraud and irregu-  
lar acts, if he can, that were practiced  
by his adversary's agents; and then  
leave the whole matter to the judgment  
of Congress, unprovoked on its Demo-  
cratic side by a heated arraignment of  
the entire Democratic party to turn him  
out, simply because he is a Republican  
who had failed to placate his judges.  
In our opinion it will be easy for Gen-  
eral Vandever to take and keep his seat,  
if he but shows just a little wisdom. There  
is no wisdom at all exhibited in the lat-  
ter part of his answer to Colonel  
Lynch's notice of contest.

We have not said all that could be  
urged in support of our first objection to  
accepting as wise the justification of  
General Vandever, that our reputation as  
friend has volunteered for the benefit;  
but we pass to our second objection.  
The elected Representative from this  
Congress district has no right to invite  
martyrdom;—it is not a martyr the Re-  
publicans want, but a live member of  
Congress. He should not look beyond  
the present for vindication. He is no  
longer young, and he cannot be sure  
that two years hence some younger man  
will not be preferred to make the race.  
Certainly if he shall fail to maintain his  
present seat through any blundering  
acts, the cry of martyr will not avail him.  
It is with him, now or never.  
And he should at once withdraw or  
amend his answer. As it stands to-day  
it will not do.

## The Charity Ball.

Thursday night next is the date upon  
the lips of all the society people in Los  
Angeles. The occasion is the annual  
charity ball, given under the auspices of  
the Ladies' Benevolent Society. The  
assured pleasure of the evening, the cer-  
tainty that all the gay people of Los An-  
geles will be present, and the merit of  
the cause which is to be the beneficiary  
of the ball, all combined will draw to  
the ball a throng of all the ton of the  
place. The ladies find themselves face  
to face with unusual claims upon their  
charity, and they have made special efforts  
for the success of this undertaking. All  
they try is to be crowned with the  
fullest success. The coming ball will be  
a most successful one.

## LEGISLATIVE.

The "Herald's" Letter from  
Sacramento.

SACRAMENTO, February 11, 1887.

The greater portion of the day in the  
Senate were consumed in the second  
reading of bills, and discussions and argu-  
ments of but very little importance to  
the people was indulged in and kept up  
for the greater part of the day, until the  
Senators who believe in taking their  
usual vacation moved to adjourn till  
Monday at 2 o'clock and the motion was  
carried. The session is growing short,  
and during the ensuing week many of  
the bills that are in the hands of com-  
mittees will be disposed of. Next week  
there will be some fun, so to speak,  
when the Senate will come to the  
surface; also the bill to divide the  
county of Colusa. The feeling mani-  
fested in regard to these two bills is  
growing more and more bitter, and per-  
sonalities are indulged in to such an  
extent that if violence should occur it  
would not be surprising if any one in the  
capital city. In and around the barrooms  
and hotels these matters are discussed  
with much warmth and feeling. The  
use of money is talked of as freely as if  
there was no other consideration to be  
thought of. "Fighting" is the byword,  
and the only question is the amount.  
The insurance men are moving briskly,  
and are determined to gain their fight,  
cost what it will.

The Irrigation Committee are still at  
work and doing well. Bowers' Senate  
Bill No. 3, to repeal the riparian section  
in the Civil Code, will be introduced in  
the House on Monday as a substitute for  
the Butler bill, and there is no doubt  
that it will pass both Houses without  
opposition.

The Wright Irrigation bill will be in the  
Senate next week, as will  
also be Rose's Forestry bill.  
The Senate adjourned to-day at 5:30  
p. m. until Monday at 2:30 p. m. The  
House will adjourn to-morrow until the  
same hour, so that anything I might  
write would be the week-end and I will  
wait for things to develop themselves.

## A Perpetual Fair.

The presence of the representatives of  
Tulare county, Fresno county, San  
Diego, Riverside, Santa Ana, San Jose,  
and other localities with their exhibits of  
natural products of nuts, oil, fruit and  
wine, make Los Angeles a perpetual fair,  
showing the vast resources of the country.

These exhibits of raisins, canned  
fruits, grain, olive oil, olives in pickle,  
oranges, lemons, lemons, pomegranates,  
dates, dried fruits of every kind, vege-  
tables of all kinds, and many other things  
of great value, are given away free of  
charge. The exhibits are of great value,  
and are very attractive and of absorbing in-  
terest.

The only drawback to the complete  
usefulness of these fine exhibits is the fact  
that they are scattered all over the city,  
and it is difficult to find them. If they  
could be placed in some hall where a  
dozen of these fine displays could be  
seen at an hour's leisure the utility to visitors would  
be greatly increased.

It seems most fitting to have these  
representative exhibits in one place  
where a visitor can learn much about  
the country in a short space of time. In  
other words this concentration of exhibi-  
tions would make a perpetual fair of all  
the valuable products of the State.

A good opportunity appears to be of-  
fered at the present time for making  
such a place of exhibition. Mr. I. W.  
Helmman is making a large number of  
commercial rooms by the new postoffice,  
and might possibly be prepared to fit up a  
room extending from Main to New High  
street especially adapted to the purpose.  
Land in this vicinity is at \$200  
per acre. Building lots in all  
parts of the city.

FOR SALE—THIS BEAUTIFUL HOME AT  
a sacrifice. Must be sold inside of thirty  
days. House 7 rooms, good barn and out-  
buildings, including 1000 acres of land in  
the heart of Orange county, near  
Pico, grapes, etc., all in bearing. This  
tract is on Alameda street, between 9th  
and 10th streets, right in center of  
the city, just the thing for subdivision. For  
particulars inquire of Mr. J. M. ROSE, 114  
Main street, Los Angeles. \$10,000.  
\$10,000.

## The Carleton Opera Company.

To-night at the Grand Opera House,  
the famous Carleton Opera Company  
will give their initial performance in this  
city. The troupe comes here heralded  
by the warmest eulogiums of the press  
east and west. There is little doubt  
that the company is fully equipped for  
opera for the week and the happiest re-  
ception possible. The opening night will  
present *Nanon*, the beautiful waltz song,  
and other melodious *nocturnes* from which  
are familiar to all who love light music  
in their most charming phases. Then  
follows the *Midnight*, a grand and all  
the principal streets of the city. Some  
very cheap and on easy terms. Apply to  
W. P. McINTOSH, 122 N. Spring street.  
Feb 12-13

## HON. J. MARION BROOKS.

Hon. J. Marion Brooks, of Ventura,  
passed through the city yesterday on  
his way to Sacramento. He has been  
enjoying a few days' rest from his legi-  
slative duties. Brooks wants his friends  
to rest perfectly easy on the score of his  
confirmation. He says he is a firm be-  
liever in the fact that the present is a  
Democratic administration and that a  
few protests from Republicans will not  
prevent the continuation of a man who  
knows nothing but Democracy and has  
had an eye single to the advancement  
and perpetuation of that party.

## Progress on Small But Important.

E. C. Burlingame, the chief grader,  
reports that he has the grading on the  
Ostler Farm dummy road completed from  
the new town of Ivanhoe to Ange-  
les Heights, and inside of four weeks  
will have it completed to Bandey  
avenue. He thinks that the road will be  
ironed and in running order before  
ninety days. Mr. Burlingame's men are  
also hard at work on the new dummy  
road which is to run from the terminus  
of the Second-street cable car to the  
New Baptist College, a distance of nearly  
two miles. The grading of the Temple  
street car line is done and the whole road  
will be graded in five weeks. He will  
finish the grading of the Anaheim street  
car road, distance of one and one half  
miles, this week.

## LOST AND FOUND.

LOST—FROM THE PREMISES OF  
J. M. ROSE, 114 N. Spring street, a bay colt with  
gray on forehead, and hind feet spotted  
with white, and all white on the body.  
Reward given for its recovery. The coming ball will be  
a most successful one.

"Wants," "Personals," and other adver-  
tisements under the following heads in-  
serted at the rate of 5 cents per line for  
each insertion.

## NEIGHBORHOOD NOTES.

## What is Going On in the Towns Around.

## GREAT PROGRESS ON FOOT.

Petroleum in Ventura—Railroads in the Santa Ana Valley—Hotels and New Towns.

The following items are gathered from a few of the HERALD's local exchanges:

## ANAHIM ANA.

Here we are, nearly in the middle of the month February, and still there are a large number of vineyards in the vicinity which have not yet been pruned. It is not surprising to know that very few Mission vineyards will be pruned at all, because the greater part of this variety of vines was damaged by the disease. Young vineyards, from one to four years old, of foreign varieties, have also not yet been pruned in some parts, but the work will probably be completed in all vineyards before the end of this month. [Gazette.]

A new postoffice has been established at Burrell Point, to be known as Olive, with L. Z. Huntington as Postmaster. The mail for the new office will be carried from Orange station. [Gazette.]

The plan for the proposed new magnificent hotel to be built in Anaheim, on an exhibition at the store of A. Langenberger. It was designed by John C. Pelton, Jr., architect, of Los Angeles. [Gazette.]

## SHIPMENTS FROM ORANGE.

The Tribune gives the following as the exports from Orange for the week ending January 30th: One car emigrant outfit, 20,000 lbs.; 1 car barley, 21,700 lbs.; oranges, 390 boxes, 18,290 lbs.; eggs, 36 cases, 2160 lbs.; nursery stock, 56 packages, 5170 lbs.; raisins, 73 boxes, 510 lbs.; merchandise, 3720 lbs. Total, 71,560 lbs.

## TUSTIN HOTEL.

The excavation for the foundation of the fine hotel in Tustin has been completed, and now work on the brick foundation will begin. The hotel will be built by the Tustin Improvement Company, composed of the leading citizens of that pleasant, home-like neighborhood. The house is to be a frame structure of two stories, and will probably cost between \$12,000 and \$15,000. Mr. George Freble is to have charge of the carpenter work on the building, which is a guarantee of a good job. [Santa Ana Herald.]

## SANTA ANA SHIPMENTS.

The following were the exports from the Santa Ana station for the week ending Feb. 10th: Eggs, 84 cases, 5040 lbs.; fowls, 9 coops, 1820 lbs.; oranges, 2439 boxes, 7070 lbs.; household goods, 1 car, 20,000 lbs.; cattle, 2 cars, 40,000 lbs.; general merchandise, 4 cars, 40,000 lbs. Total, 282,230 lbs.

Two carloads of hogs were shipped to San Diego this week, by a butcher of that city. They went from here by the Southern Pacific to Los Angeles, and thence on the California Southern. Rather a roundabout way, but all that will be changed in a very short time by two lines of railroad to San Diego. Citizens of that part of the country will then be enabled to come here and buy their supplies in our rich valley. [Santa Ana Herald.]

## THE FLOWER FESTIVAL.

The Third Annual Flower Festival will be held at Los Angeles, commencing the second week in April, and will continue two weeks. Many of our citizens will remember with pleasure the beautiful display of flowers, and they will remember that Orange made a grand showing, and one that was admired by everybody. If an effort is made this year the exhibit can be made much better than the last one. Two months is plenty of time to make ready, and if the ladies will trim their flowers with the view to have them in large quantities at the proper time, they can make an exhibit for Orange that will take the prize among the best, and there will certainly be a grand effort made. [Orange Tribune.]

## THE GREAT OIL BELT OF VENTURA COUNTY.

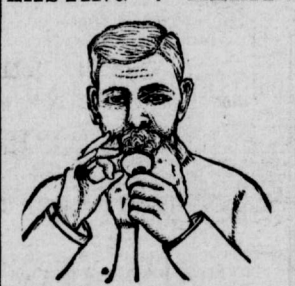

The existence of this peculiar substance in this county was first discovered in 1852. Since that time numerous attempts to develop it and make its production profitable have been made, resulting in as many failures, and up to 1883, when Harrison, Stewart & Co., the present operators, took hold of it, the prevailing impression was that there was oil here, but not in sufficient quantities to justify the outlay of money and labor necessary for its production. Coming here with a good stock of practical knowledge of the business, and the ready money to make that knowledge available, Messrs. Harrison, Stewart & Co. secured the abandoned works and territory of their unfortunate predecessors, and at once began the work of opening up the old tunnels and wells, and of excavating new ones and their enterprise has been a grand success from the start. They now have, after three years of labor, a flow of oil exceeding 500 barrels per day, which they have increased to that quantity from less than fifty barrels per day when they began operations. In addition to this they have laid 100 miles of pipe line for conveying their oil to the railroad on one side, and to the ocean on the other, have two schooners running from San Buenaventura to San Francisco carrying large quantities of crude oil monthly to that city, where it is disposed of to the refinery. Large quantities of crude oil (the black variety being reserved for this purpose, we believe) are used in Los Angeles, and probably also in this county, for fuel. It is a singular fact that while both black and green oils are found in the same oil belt, they seldom, if ever, occur in the same stratum. Furthermore, only the green oil is valuable for illuminating purposes. The company is still pushing development work successfully, and under their management the flow of oil is continually increasing, showing the existence in our hills and mountains of incalculable treasures of wealth.

But the geological formation in which petroleum occurs appears to be as distinctly characterized as that of gold, and a little familiarity with the external appearance of the territory in which petroleum is found, the stratum in which it is formed, or carried, and contiguous "country rock," will enable one, if we mistake not, to trace an oil belt with much more ease and certainty than is manifested by the most expert prospector in tracing a gold-bearing belt. If we are correct in this supposition, the extent of oil territory in which prospecting has been done and developments made in this county, is as nothing compared to the vast field yet untouched and idle. Bituminous slate everywhere accompanies the ledges of shale or shaly sandstone in which oil deposits are found; and this slate is always found to be impregnated with sulphur, lime, iron, magnesium, sodium, etc., and is intersected at frequent intervals by the ledges of shaly sandstone just mentioned. And this belt extends across our county from southeast to northwest, the trend of the ledges being always in that direction, and as far north as Lockwood valley,

making its width about sixty miles. The incline of the ledges indicates every possible angle, from horizontal to perpendicular, and this is more truly the case on the southwestern border of the oil belt than further towards the north-east, and it is here that the oil is bound to exude from the surface of the ground, two facts which occurring together would appear to be attributable to the more broken and upheaved condition of the surface where they exist. To this as it may, indications favor the development in this county of one of the finest and largest oil fields in the world, and it is not impossible that the wealth of our hills may yet equal that of our valleys, inconceivable as the latter unquestionably is. [Ventura Democrat.]

**Boyle Heights.**  
See Browning, No. 7, South Main, and take a ride over Boyle Heights before you buy a home or building lot.

## LASTING MERIT!

This Supplemental Testimonial proves the Permanency of a cure when made by the "Carbolic Smoke Ball" and "Debellator" Treatment.

## READ THIS FIRST LETTER:

SAN FRANCISCO, December 10, 1886.  
**CARBOLIC SMOKE BALL CO.:**  
Gentlemen, Monday of this week, our son Willie, aged 22 years, called at your office and purchased a Smoke Ball after receiving a FREE TEST. He had measles when he was three and a half years old, and it left him with deafness in the left ear. When he reached home, his father gave him another dose, and last night he got great relief, even so much that pain left his chest and he had a discharge from his ear, which had been very dry and had pained him very much for years. Our boy can hear now as well as any person living, and our family is overjoyed with the results of the treatment of the wonderful "Carbolic Smoke Ball." Hoping this statement will be the means of letting some other afflicted soul know of the great efficacy of the "Smoke Ball," we are, very respectfully,  
MR. JOSEPHINE WINTER,  
417 Montgomery St., Room 18.

## THEN READ THIS ADDITIONAL:

SAN FRANCISCO, February 8, 1887.  
**CARBOLIC SMOKE BALL CO.:**  
I am happy to state that the cure of my deafness, mentioned and certified to by my father and mother, on December 10, 1886, is permanent, and is improving rapidly in my catarrh. Very respectfully,  
WILLIAM WINTER,  
407 Montgomery street.

**We Do Not Go Abroad For Proof Of Our Assertions** that the "SMOKE BALL" and "DEBELLATOR" treat-ment is the simplest, most convenient, sure and speedy cure for all Head, Throat and Lung diseases extant, and that the "SMOKE BALL" marks a new era in the treatment of Catarrh, Bronchitis, Asthma, Neuritis, Deafness, Weak Eyes, Granulated Lids, Croup, Scrofula, etc.

**A Free Test Given To All Callers** at our Ladies' and Gents' Parlors, permanent, and 10, second floor, corner Market and Kearny streets, opposite Lotta Fountain.

**"SMOKE BALL" and "DEBELLATOR" Package Sent By Mail** with full directions, on receipt of price, \$5 Smoke Ball \$5, Debulator \$5, and two postage stamps.

## CARBOLIC SMOKE BALL CO.,
